

If House 1, would have been green, then there should have existed House 0 (Contradiction)

If House 1 would have been white, then the color of House 2 would have been Green which contradicts the blue color of House 2.

• From Clue 1, the color of House 1 is not Red since House 1 does not have an Englishman

∴ The color of House 1 is yellow

• From Clue 8, House 1 has a diplomat.

• From Clue 4, Clue 12 and Clue 10 respectively, House 1 does not have a person drinking Tea since the person is not Italian, it does not have a person drinking Orange juice since the person is not a violinist, it does not have a person drinking coffee since the person house is not green.

∴ The favorite drink in House 1 is Mineral Water

• From Clue 14 and Job of House 1, the Pet of House 2 is Horse.

• From Clue 1, House 2 does not have an Englishman since the house is not Red.

• From Clue 2, House 2 does not have a Spaniard since it does not have Dog as a pet.

∴ Nationality of House 2 is either Japanese or Italian

• From Clue ¹⁰2, House 2 does not have fav. drink coffee since the color is not ¹⁰Green.

∴ Fav drink of House 2 is either Orange juice or Tea

Suppose, let's take Nationality of House 2 as Japanese. From Clue 3, Japanese man is a painter. From Clue 12, the violinist drinks Orange juice and from Clue 4, the Italian drinks Tea. This is a contradiction to the fact that the Fav drink of House 2 is either Orange juice or Tea.
