

- The Spaniard owns a Dog from Clue 2. From given table, the Spaniard can either be a Photographer or a Painter. From Clue 3, the Painter is a Japanese man.  $\therefore$  The Spaniard must be a Photographer. From Clue 7, the photographer breeds Snails which is a direct contradiction to Clue 2.

$\therefore$  Color of House 3 is not White and must be Red.

|         | Nationality | Job          | Color  | Pet   | Fav. Drink    |
|---------|-------------|--------------|--------|-------|---------------|
| House 1 | Norway      | diplomat     | yellow | Fox   | Mineral water |
| House 2 | Italian     | physician    | Blue   | Horse | Tea           |
| House 3 | English man | photographer | Red    | Snail | Milk          |
| House 4 | Spaniard    | Violinist    | White  | Dog   | Orange juice  |
| House 5 | Japanese    | Painter      | Green  | Zebra | Coffee        |

- From Clue 1, there is an Englishman in House 3.
- From Clue 6, House 5 must be Green, since if it would had been white, there should had been a green house 6 on the right of ~~the~~ House 5 which is a contradiction.
- $\therefore$  House 4 is white. From Clue 10, House 5 has a person having favorite drink coffee.  $\therefore$  House 4 has a person having fav. drink Orange juice. From Clue 12, there is a violinist in House 4.
- From Clue 3, The Japanese man is a painter.  $\therefore$  The Englishman must be a photographer.  $\therefore$  House 3 has a photographer.
- $\therefore$  House 5 has a painter. By Clue 3, there is a Japanese in House 5.
- $\therefore$  House 4 has a Spaniard. By Clue 2, there is a ~~known~~ Dog in House 4.
- By Clue 7, there is a snail in House 3. From this information and Clue 13, there is a Fox in House 1.
